EXTRUSION TECHNOLOGY

EXTRUSION ACADEMY PRO

Online seminars for plant operators and production managers

online

Building on the Extrusion Academy BASIC course, the Extrusion Academy PRO offers more in-depth knowledge on various topics tailored to your respective core process. In addition to the basic package, you can choose from further virtual modules:

Basic package
BASICS & ANALYTICS

Option module I
MASTERBATCH

Option module II
COMPOUNDING

Option module III
FOOD

*We are online
... join us, too!*

EXTRUSION ACADEMY PRO

Online seminars for plant operators and production managers

online

BASIC package		Option module I	Option module II	Option module III
BASICS	Analytics	Masterbatch	Compounding	Food
Date: Febr. 10 th 2021 2 pm to 4 pm CET (Central European Time)	Date: Febr. 24 th 2021 2 pm to 4 pm CET (Central European Time)	Date: March 3 rd 2021 2 pm to 4 pm CET (Central European Time)	Date: March 4 th 2021 2 pm to 4 pm CET (Central European Time)	Date: March 2 nd 2021 2 pm to 4 pm CET (Central European Time)
Refreshing on extrusion basics	Intelligent process monitoring through modern control technology	Optimized masterbatch production	Optimized compounding production	Basics of aroma encapsulation and TVP process
Extruder setup for different applications	Recording rheological parameters close to the process	It's all in the mix	The right filler	Scale-Up
Production reliability through optimized service strategies	Color measurement in the melt	Scale-Up	Scale-Up	Visualization of screw geometries - draw your own screw profile
Next level underwater pelletizing		Visualization of screw geometries - draw your own screw profile	Visualization of screw geometries - draw your own screw profile	
duration: 2-2.5 hrs.	duration: 2-2.5 hrs.	duration: 2-2.5 hrs.	duration: 2-2.5 hrs.	duration: 2-2.5 hrs.
BASIC package + 1 option module: 600,- € each additional module: 199,- €		Option I 199,- €	Option II 199,- €	Option III 199,- €

- The **Extrusion Academy PRO^{online}** consists of 2 modules, the BASIC package and at least one option module. Prerequisite for participation in one or more option modules is the participation in the BASIC package.
- Live event with specialists from Leistritz and renowned partner companies.
- The course will be held in English language. 
- Customer benefits: Repetition of the basics of extrusion technology, in-depth knowledge on various topics tailored to the process, little time required.
- General conditions:
 - Stable internet access, no program installation necessary (platform "GoToWebinar").
 - We recommend a sufficiently large monitor and a headset for successful training.
 - In addition, not to forget: an environment that is as free of disturbances as possible.
